**Length of Stay in Previous Place:**

One day or less       Two days to one week       More than one week, less than one month  
 One to three months       More than three months, less than one year       One year or longer

**Approximate Date Homelessness Started:** \_\_\_\_/\_\_\_\_/\_\_\_\_

*Have the client look back to the date of the last time the client had a place to sleep that was not on the streets or ES. Remember that "the streets" is being used as short-hand for any place unfit for human habitation (a public or private place not designed for or ordinarily used as a regular sleeping accommodation for human beings, including a car, park, abandoned building, bus or train station, airport, or camping ground). Including the situation the client was in right before entering, plus any continuous time moving around between the streets, an emergency shelter, or a safe haven, determine the date this period of the client's "literal" homelessness began. The look back time would not be broken by a stay of less than 7 consecutive nights in any permanent or temporary housing situation nor would it be broken by an institutional stay of less than 90 days (i.e., jail, substance abuse or mental health treatment facility, hospital, or other similar facility). Approximations are permitted.*

**Zip Code of Last Permanent Address:** \_\_\_\_\_

**# of times (episodes) on streets or in ES in 3 years:** \_\_\_\_1 \_\_\_\_2 \_\_\_\_3 \_\_\_\_4 or more

*Including today, count all the different times the client was on the streets, in an emergency shelter in the last 3 years where there are full breaks in between (i.e., breaks that are 90 days or more in an institution or 7 nights or more in permanent or transitional housing).*

**Total number of months homeless on the street, in ES in the past 3 years:** \_\_\_\_\_ Months

*Count the cumulative number of months in which a person was on the streets or in an ES in the last 3 years, including stays in an institution less than 90 days or in permanent or transitional housing less than 7 days. Round the number of months up to the next highest number of full months. The current month, even if a partial month, can be counted as a full month.*
